PROFESSIONAL SUMMARY

Analytical Interactive Experience & Product Specialist with a background in Unity Development, UI/UX, and Instructional Technologies. Skilled at bridging creative vision, user experience, and technical engineering. Experienced in driving digital products and gamified systems from specs to deployment, managing end-to-end lifecycles, and leveraging AI tools to optimize production workflows.

WORK EXPERIENCE

BACK OFFICE EMPLOYEE

XYX media technologies LTD / Blue web developments

Jan 2020 - Oct 2021

- Managed operational workflows in a fast-paced environment requiring high precision and strict timelines.
- Coordinated with R&D teams to streamline system documentation and track milestone execution.
- Multi-tasked across cross-functional operations while maintaining data accuracy and operational control.

CHILDCARE PROVIDER

2014- present (with breaks)

- Managed multiple responsibilities independently in dynamic environments and resolve conflicts calmly.
- Demonstrated strong responsibility, organization, and problem-solving skills

PROJECTS & INTERACTIVE DEVELOPMENT EXPERIENCE

LEAD PRODUCT & INTERACTIVE DEVELOPER | ACADEMIC & INDEPENDENT PROJECTS

- End-to-End Product Lifecycle: Managed full characterization, design, and technical execution of interactive apps and games from raw specs to deployment.
- Technical Art & Engine Pipeline: Wrote scalable C# scripts, prefabs, and custom shaders in Unity to balance visual quality with mobile performance.
- Gamified Healthcare Solution (Rambam Hospital Partnership): Led product specs, user research, and technical build for a pediatric outpatient interactive system, translating complex clinical needs into an intuitive user journey.
- User-Centric Architecture: Conducted user research to build specifications, UI/UX flows, and clear feedback loops.
- Cross-Functional Execution: Synchronized design, content, and dev layers; integrated GenAI tools to streamline prototyping and research.

SKILLS & TOOLS

- Product & UI/UX: Product Specs, User Research, Wireframing, Figma, Adobe CC (Photoshop, Illustrator), Design Systems.
- Engineering & Unity: Unity (2D, C#), Technical Art (Shaders, Materials, Particles), Mobile Optimization, HTML/CSS, JS.
- EdTech & Methodologies: Gamification, Learning Experience Design (LXD), Full Product Lifecycle, GenAI Workflows.
- Core Competencies: High Self-Learning Ability, Attention to Detail, Deadline Driven, Systemic Thinking, Problem-Solving.

EDUCATION

B.A. IN INSTRUCTIONAL TECHNOLOGIES

Focus on Learning Experience Design, Systems Thinking, UI/UX, and Digital Interface Specs.

Expected 2026

Holon Institute of Technology, Holon, Israel

APPLICATION DEV COURSE

Comprehensive studies in application architecture, dev logic, and testing environments.

2021- 2023

HackerU, Tel Aviv, Israel
